Because this book's main objective is to foster and promote student development, it should appeal to those who advise, counsel, and teach undergraduate and graduate students, particularly those in psychology, education, and other social sciences. Along with a plethora of stimulating ideas for practice and research, the book contains the results of research having immediate applications to students' educational and career direction needs. Readers will find more than 90 articles in this book distributed across three significant challenges to students' development: the academic, occupational, and personal. Further, the material presented has been organized around three distinct approaches to these challenges: advising, career development, and field placement activities. The source for these articles is the official journal, *Teaching of Psychology*, of Division Two of the American Psychological Association.

This proceedings book captures a wide range of timely themes for readers to be able to foresee the digital era's impact on English teaching in non-English speaking countries. English used in the global environment, the frequent mobile communication, and the use of AI-based translators are bringing about dramatic changes in our English language learning and teaching. Who can provide us the wisdom to know what to do? Those scholars going through these complex environmental changes, a collection of puzzle pieces may bring us a better contour for the future than a perfectly edited book. It's indeed a pleasure reading these insightful pieces to gain wisdom for the future of ELT practices in global contexts.
