while the number of vector borne diseases and their incidence in europe is much less than in tropical and or developing countries there are nevertheless a substantial number of such infections in europe the most important one is the zoonotic arbovirus infection tick borne encephalitis tbe a virus transmitted to humans by ticks or by consumption of unpasteurized dairy products from infected cows goats or sheep tbe is endemic in the non tropical eurasian forest belt with most cases occurring in russia and in central and eastern parts of europe in endemic areas tbe is one of the most important causes of viral meningitis encephalitis and a major public health concern moreover tbe is becoming more and more frequent in europe due to the appearance of new endemic areas and increasing awareness however it might be difficult to diagnose tbe because clinical manifestations tend to be relatively nonspecific although a standardized case definition across the european union has existed now for a few years national implementation of tbe programs including regular screening and diagnosis are done in only very few countries therefore wide differences in the intensity and quality of national surveillance of tbe cases still exist and the true burden of disease and the areas with circulation of the tbe viral subtypes in europe and asia are not fully known moreover although safe and effective vaccines are available vaccination uptake in most endemic countries is too low to reduce the tbe burden significantly the authors of the tbe book therefore have tried to compile in this working book the most recent and relevant aspects of tbe

this book analyses protests against the great recession in the european periphery while social movements have long been considered as children of affluent times or at least of times of opening opportunities these protests defy such expectations developing instead in moments of diminishing opportunities in both the economic and the political realms can social movement studies still be useful to understanding these movements of troubled times the authors offer a positive answer to this question although specify the need to bridge contentious politics with other fields including political economy they highlight differences in the social movements strength and breadth and attempt to understand them in terms of three sets of dimensions a the specific characteristics of the socio economic crisis and its consequences in terms of mobilization potential b the political reactions to it in what we can define as political opportunities and threats and c the social movement cultures and structures that

characterize each country the book discusses these topics through a contextualized analysis of anti austerity protest in the european periphery
